"A Union is Strength." County Convention. It is the first full, regular, united, bona fide county convention held for many years.

There were fewer candidates than usual this year, consequently fewer disappointments, and we believe the decisions made are acquiesced in with more than common unanimity and sincerity.

Of the Nominees, Messrs. HAYES, SIMONSON, VORSE, and BOGAR, we believe are natives of the county—have grown up with it—and any formal introduction or eulogy would be superfluous.

Resolved, That the administration of Franklin Pierce has been faithless to its promises, unjust to the people of Kansas, and fruitful only of evil and discord to our country.

Resolved, That the great question, for the next Presidential election, is, whether Slavery shall be permitted to roll its desolating wave over the Territory of Kansas, which was once solemnly dedicated to Freedom for ever.

Resolved, That in the present situation of National affairs, we approve of the election of JOHN C. FREMONT, of California, for President, and WM. L. DAYTON, of New Jersey, for Vice President.

Resolved, That the selection of candidates from different sections of our county, representing all the interests which have recently divided us, all past local divisions are this day buried, and that we only ask for a faithful execution of the Division Law, in its letter and spirit.

Resolved, That we endorse the nominations of THOMAS E. COCHRAN for Canal Commissioner, DARWIN PHELPS for Auditor General, and BARTHOLOMEW LAPORTE for Surveyor General of this Commonwealth.

parties and the confidence each has in the strength and justness of his cause.

The Republican platform is a plain and straight-forward avowal of honorable and constitutional designs to prevent the spread of an admitted evil. It reads very much like a Declaration put forth 80 years ago from the same city. Read it! and if in your heart is a pulse of love of liberty and the rights of man, you will say it is right.

What can be said of the Cincinnati or Buchanan platform? What name those numerous, circular words about '98, '99, "Mourne doctrine," "proper constitutional powers," &c. &c. What principle is to be decided by the election is concealed under this mass of verbiage? Why, sitting out two grains of sense from a bushel of chaff, we say the Platform goes—

1. For completing the subjugation of Kansas to Slavery.

2. To annex Cuba and Nicaragua, and thus further strengthen Slavery.

This is also the interpretation put upon the platform by the South generally. No matter what may be the words used to blind the North—the MEANING of it all is to strengthen and defend Slavery without any check. It is a Texas in embryo. It is so considered by Pierce, Douglas, Quitman, Sibley, Brooks, Rust, and all the Southern Filibusters!

WHICH DO YOU CHOOSE? What harm can be done on the Republican—what harm can NOT be done on the Cincinnati, platform?

Buchanan Party Tactics. Our correspondent "Many" last week requested the Argus to copy the Republican resolutions, that its readers might see the real purposes of the new organization.

But our contemporary was not so "jolly green" as to oblige him. As soon would Papist priests put Bibles in the hands of their deluded flock, as Buchanan editors permit their readers to see for themselves the Platform of the Republican party.

On reading the Bible would make "heretics" in "the church" just as the Philad. platform is making "traitors" to "the party." A far better way, they think, is to exclude from "the faithful" all light, and by thus keeping them in blissful ignorance they can be tolled along into the support of Papacy or Slavery. Another bespatter with opprobrious personal terms of abuse their opponents—Protestants or Republicans, as the case may be—thereby exciting prejudice among the ignorant, the bigoted and stubborn. The last proof of the "Argus" dated

June 20, 1856. The Black Republican or Nigger Whipcord Convention assembled in this city last Monday. We were very late there never was such a wolly gathering. All stripes from nky black to milk white were properly represented. It contained a large number of the blackest-hearted, white-browed, hypocritical scoundrels extant, who pursued out the trials of their wrath unsparingly upon the heads of men in the Democratic ranks—men whose bones they are not fit to clean. It is notorious that this Black Republican Convention contained more rowdiness, blackguardism, demagoguism and nigger-worship than was ever before concentrated together at one time in this Union. This is a wicked world and filled with all kinds of rascals including abolitionists and thieves.

"This world" also contains at least one person in Philad. who has probably forgotten if he ever learned the command "thou shalt not bear false witness." What will honest men say when informed—as we do state from the best reliable sources—that every material allegation made above is utterly false! There was not a colored man a member of the Conventions from Monday morning to their close: all were "free white men." It was no "Abolition" gathering, for the Abolitionists have had their own Convention and made their own Nominations, differing from ours. There were very near 600 Delegates—resolute and earnest men—who spoke freely, and were excited by honest differences of opinion, manfully discussed; but there was neither "rowdiness" or "blackguardism" among the members. It is doubtful whether so large a popular Convention has ever met, containing so much of talents, intellect and respectability. There were eight or ten Governors and Ex-Governors in attendance, and every rank of true dignity and honor was fully represented. As average specimens of those who composed the assemblies described as above in the "Argus," we give the names of all from this vicinity, known to most of our readers personally: JAMES F. LINN, THOMAS HAYES, ELI SLIFER, JOHN B. LINN, of Union county, DAVID TAGGART of Northumberland, WM. H. ARMSTRONG of Easton and WM. H. CHAMBERLAIN of California—the two last, natives of Lewisburg. We submit to our readers whether such men—if they were in that line of business—are "fit to clean the boots" of any of the slaveholding Democratic gentry, not excepting the duelist Breckenridge, Brooks, Herbert, Butler, "noble Frank," old Buck, or even the dictator of Democracy, Douglas himself!

—This valuable 'correspondent' is said to have made money by Southern trade, and it is fully evident from his writings is deeply interested in the triumph of Slavery in the coming contest. A bachelor, surely his devotion to the cause which protects those "twain relics of barbarism, polygamy and slavery," entitle him to fill the first vacancy in the perfect democracy of Uiah!

Sensible Thoughts. The Independent Whig, of Lancaster, is one of many papers which—as between FILLMORE and BUCHANAN—supported Mr. Fillmore for President. But changes that have occurred in the vital issues of the campaign, have made it the duty of every man to review the whole field, and take a stand to meet the emergency. The Whig has accordingly raised the banner of Freedom and Union, and says:

"Mr. Fillmore was nominated, not by the whole American party, but by the Southern Americans, and those who sympathized with them, north of Mason's and Dixon's line. With one of the principles of the South American party we agree. Against another, perhaps the leading one, we protest. Still, had the choice continued to be, between a candidate, some of whose principles we approved, and one, all of whose principles we condemn, we should have preferred the former. Fortunately we are left in no such dilemma. The Northern Americans,—the Americans of Freedom,—have concurred with the Republicans, in presenting the name of a gallant, energetic and accomplished Statesman—Col. Fremont; modest as he is bold—learned, but not retiring ever to have aspired to that high place. Possessed of extraordinary ability, he has been found incorruptible in every transaction of his life. The descendant of a Huguenot, who was driven from his own country by religious persecution, he is not likely to favor the indulgence, or ascendancy of that persecuting foreign power. Reared amidst the horrors of the "peculiar institution," and having removed from his native "section" to enjoy the blessings of Freedom, he seems a fit person to hold the reins of a Free Republic.

"As American Republicans, or Republican Americans, we care not which, shall give our support to the man who unites both characters; and who, if elected, will restrain the aggression of Slavery, and curb, within just limits, the dangerous pretensions of a foreign hierarchy. In this contest the line will be drawn between Liberty and Slavery; and between the Southern Oligarchy and their train bearers, the Northern Dough Faces, and the sturdy, unyielding Freeman of the North."

The Miners' Journal, Pottsville—has also come out for Fremont, and that without any denunciation of Mr. Fillmore or of his supporters.

On Saturday last, at a regular meeting of the New York National Filmmore Club, it was unanimously resolved, on motion of its President, to support Col. Fremont.

The Wilmington Republican—much the most influential paper in the State of Delaware—sustains Fremont.

The National Intelligencer—in earlier days the Democratic, and in later days the Whig organ at Washington—endorses Col. Fremont's integrity and capacity.

Altogether, Fremont's nomination is very acceptable, and is arousing the popular enthusiasm even more than was anticipated.

For the Lewisburg Chronicle. "One" of the Argus thinks "perhaps" he could contribute to the cause. He will not need the instruction, I beg respectfully to ask for a little information for my own ease of mind. I value dearly the elective franchise, and while the opportunity is offered me I believe it to be a duty to vote, and TRUTH and JUSTICE, as I am able to comprehend them, I endeavor to make my Platform. My judgment, however, is not infallible. I voted for FRANKLIN PIERCE, and retribution is "bitter as wormwood." For these reasons, it would be wise of mind to know the truth in the present dilemma, and I trust "One" will define it for the especial benefit of my own ignorant self. I can subscribe to the Democratic creed, as I understand it, save in one particular, i. e. servitude to Southern masters; in other respects, I can discover no difference between it and the Republican. In this canvass, the nomination of the latter was my first choice; hence the dilemma. JAMES BUCHANAN is James Buchanan no longer, but the "Cincinnati Platform." I do not inquire into his integrity or love of truth and justice, but am told, "once for all," he is a perfect antonoid, and the "Cincinnati Platform" pasted over his face, blotting out all individual identity. To determine in my own mind that I am favoring the best man for Chief Magistrate, since the contest is between

JOHN C. FREMONT, Republican Nominee, and "CINCINNATI PLATFORM" Democratic Nominee,

shall I study the character of the former, and commit to memory the latter? It may, perchance, be necessary to add to the latter the Laws passed by the Kansas Legislature, since, through inadvertency, they were not embodied in the Platform; but even that, or anything else "One" thinks will instruct, or enable me to arrive at truth, I am ready to hear, no matter how ridiculous matters may appear, anything "One" will fearlessly and fully express, I am ready to listen to.

One thing more, Messrs. Editors, I am not going to ask Mr. "One" for a "character," but when I read his letter I remembered that there is such an article. You remember the story of BRIDGER and her kind Brother, perhaps, but I will repeat it. Bridget, provided with a letter of recommendation known as a "written character," started in company with her brother, for America; arrived in due time but unfortunately minus the letter; a happy thought occurred to the brother, however, and he supplied its place by one which read as follows: "This certifies that Bridget had a good character when she left Ireland but lost it coming over." No, I will not ask for his character, at least not at present, but I felt suspicious, when I got to where he intimates that there is a Doubtful man and follows (if I remember correctly, I have not got his letter before me,) with "the aged and respectable BUTLER," does he call him "Hox."? if so I beg to be excused for omitting it, for I will "fess" that that short, eloquent speech, so recently delivered by him in the U. S. Senate, was against my politics. It was very short: hear it! "You are a Liar!" how very eloquent!

FALL RIVER, June 26.—The Massachusetts Flour Mills, at this place, was destroyed by fire this morning. Lost, \$50,000; insurance, \$10,000.

Perennial Massacre! A WARREN AND A WASHINGTON. The mortality among children born in American cities, bears an immeasurably higher ratio to the whole mortality than to any of the cities, even the most unhealthy, in the Eastern Hemisphere. The deaths resulting from improper medical treatment, and lack of prompt attention and care, are higher among the adult population of the country, than in any other country, savage or civilized. Throughout these United States of America (God bless them) there is not one household in a hundred that has not its graveyard.

People may well begin to take this solemn fact to heart, and ask, is this always to be? It is surely a wide oversight on our superior intelligence, but is it not humiliating to be obliged to acknowledge that through our own oversight and carelessness, life has become shorter and more uncertain than with any other people? It is a moment to us to take heed, lest this aerial mortality be produced.

The women of this country are proverbial for the implicit reliance which they place on professional skill in all the diseases and ailments to which they are subject. For reasons entirely unconnected here, we discuss, the which we do not purpose to do, that women are always old, or nearly so, and their children, in whom the effects of that illness is perpetuated are constitutionally affected, so that for their protracted life, in a majority of cases is a sheer impossibility. Short of a miracle, the extremes of temperature in this country are so far apart, and variations occur so suddenly, that without some means of maintaining the system in a well-balanced condition, that is, without some means of preserving the blood pure, and keeping it at an equable degree of heat, standing good health is utterly beyond attainment.

Then comes the momentous question, where shall we obtain that grand desideratum which is to avert illness, or to remove it in all these cases? Innumerable nostrums have been proposed, and the more hounding their pretensions, the more complete has been their failure. The only universal remedies for disease that have stood the test of time that have served alike the body and the lowly that have elicited the unqualified encomiums of the highest medical talent; that have received the approval and patronage of Royalty, even that have never yet been pronounced inefficient by those who used them; that have never yet failed to benefit the sufferer; are—HOLLOWAY'S PILLS and Ointment. This is a plain statement of fact. We have no interest in puffing Professor H. Holloway or his goods. They need no such artificial recommendation as that. We have an interest in the welfare of humanity and so has he. He is a cosmopolitan (a citizen of the world) his sympathies are confined to no climate or race. Every man is his neighbor, and therefore he feels bound to do good to him as far as he can. And how can he render him better service than by bestowing on him the greatest of all blessings—HEALTH. His medicines have already met with most enviable appreciation in this country. But they cannot be too widely diffused. Every man and woman is liable to sickness, but more every man and woman should have these Pills for complaints of the system, and this Ointment for local afflictions, such as wounds and sores. Every man and woman should have these Pills for complaints of the system, and this Ointment for local afflictions, such as wounds and sores. Every man and woman should have these Pills for complaints of the system, and this Ointment for local afflictions, such as wounds and sores.

Da. DEISHAM graduated at the renowned American Eclectic Medical College, Cincinnati, having first studied the Old or Allopathic system of medicine, and attended Lectures in one of the best Medical Colleges of Philadelphia; but being dissatisfied with the system of the New or American Eclectic system, he commenced its study, and attended two courses of Lectures in the Reformed or American Eclectic Medical College of the Queen City of the West.
